

# BTE ANALYTICS BREAKDOWN

# Steph Curry

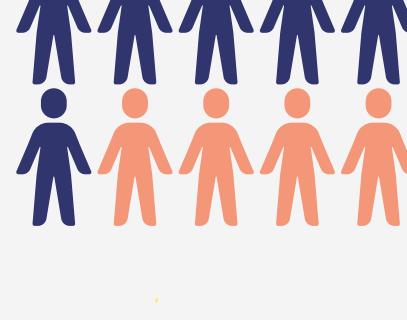

Golden State Warriors

Top 9 Scoring Games

#30

## SUMMARY

Beat the Expert dribble analytic determines the tendencies and efficiency of a player with attacking moves off the dribble.

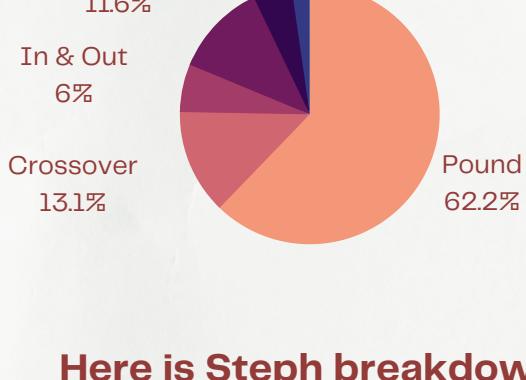

## SHOOTING

When he attacks off the dribble.  
Game 1-9: 58/97 = 62.5%

Catch and shoot  
Game 1-9: 37/52 = 58.4%

Overall  
Game 1-9: 149/244 = 61%

He is similar in efficiency from stationary and off the dribble when he gets it going.

### Here is Steph breakdown

Steph is always trying to get to a spot to get his shot off unless he has a one on one opportunity. Sit on his pound.

### Dribble to point ratio

Steph is really consistent with his dribble to point ratio. We can find a pattern for defenses to make him uncomfortable with this data.

## Playing his role

He was on fire and he starts to get into rhythm and started to take advantage of being hot at times. He would go one on one for a 3 or to drive but most of his opportunities were simple off of a screen a quick drive, pull up, or catch and shoot.

## DRIBBLING

Most of the time Steph is figuring out a way to get enough room to get his shot off rather by a ball screen, off ball screen, or catch and shoot. He sometimes goes to the basket if someones sitting on his shot.

## BTE Efficiency Score

He has eBTE 28.51 in Game 1-9.

$$\text{eBTE} = (\text{BTEDribble} + \text{BTEValue}) / \text{FGA}$$
